

# Fetus Model Set

## Care Instructions

These models are made of BIOLIKE 2™ synthetic tissue and should be handled carefully. To ensure maximum life of the models, follow these instructions:

- Before each use, lightly powder the models with talcum powder to give them a smooth feel.
- When needed, clean the models with mild soap and warm water, but avoid soaking them in water. Pat the models dry with a clean cloth and re-powder them.
- Do not allow the models to come into contact with ink or printed materials.
- Do not puncture the models with fingernails or other sharp objects.
- Keep the models stored in a cool, dry place when not in use.
- Avoid exposure to heat and direct sunlight.

**CAUTION:** These models are for educational purposes only. Do not ingest.
